

mSteam mS10 electrically heated

Constant steam volume, a variably adjustable steam quantity and an ergonomically shaped steam gun with remote control characterise the dry steam cleaners of the mSteam series. The electric steam cleaner is equipped with an industrial hose and mains water connection. The innovative continuous heating rod system also ensures a significantly higher efficiency compared to boiler systems.

Steam pressure	5 bar
Steam temperature	145°C
Steam mass flow	12 - 23 kg/h
Heating capacity	9,6 kW

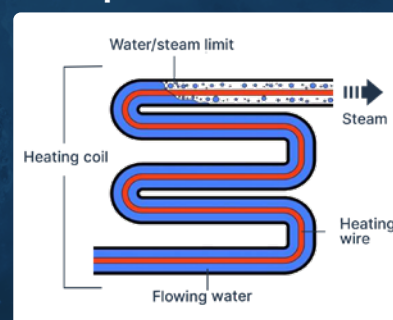

- Innovative continuous heating rod system
- Higher steam output compared to boiler technology
- Faster steam generation compared to boiler systems
- More energy efficient than boiler systems
- Designed for continuous operation
 - No pressure loss
 - Ergonomic designed pistol grip with remote control for steam ON/OFF and optional detergent dosage ON/OFF
- Powder-coated Cover (optional available in stainless steel)
- Industrial hose connection
- Mains water connection
- Integrated water softening system
- Adjustable steam quality (wet/dry)
- Industrial accessories and security package
- Ideally suited for:
 - Food industries
 - FRANK belt sanitation systems
 - Machine maintenance
 - Deep cleaning and de-greasing
 - Decontaminating and sanitising

Principle water boiler

Heating elements in the water cause it to evaporate under pressure. The steam is led upwards to the consumer.

Principle instantaneous water heater

The water flows through the heating coil and is heated by the heating wire. Before exiting, the water turns into steam and can be pumped on to the consumer.

Standard accessories

Steam hose

6m with hand grip

Art. Nr. 1506627

Round brush Ø60mm

Nylon

Art. Nr. 1305770

Round brush Ø60mm

Brass

Art. Nr. 1305771

Triangular brush

Nylon

Art. Nr. 1305769

VS Spray lance

50cm with round jet nozzle

Art. Nr. 1503377

VS Spray lance

50cm with flat jet nozzle

Art. Nr. 1503379

Water softener cartridge

Art. Nr. 1503784

Optional accessories

Steam hose

10m extension

Art. Nr. 1508314

Remote control

Art. Nr. 1508001

- Connection cable with plug: 5m
- Toggle switch for steam release
- Toggle switch for steam
- Toggle switch for detergent

Remote control

Art. Nr. 2103532

- Connection cable with plug: 5m
- Toggle switch for steam release
- Toggle switch for steam

Technical data and features

Operating pressure	2 - 5 bar
Steam mass flow max.	12 - 23 kg/h
Steam temperature max.	155°C
Electrical connection	3Ph / 400V / 50hz
Heating capacity	9,6 kW
Weight	145 kg
Dimensions LxWxH (mm)	1070×415×950
