FX Future

What we have achieved since the market launch in 2016

- Over 50,000 units sold worldwide - approx. 60% of them in the EU
- 70 Standards available
- Regular product variation
- Continuous quality improvement
- Introduction of new standard sizes FX-800 and FX-1500 with attractive price/performance ratio
- Conformity with new standard EN 13155:2020 -> load class S7 (min. 2,000,000 load cycles at maximum load)

The FX series is the world's best lifting magnet program according to the following aspects

- Technic
- Quality
- Ergonomy
- Completeness
- Availability / longevity / spare parts supply

What is the goal

- Sustainability

How we want to achieve this

- Green Dot / Transparent product information

What is Green Dot

- The Green Dot is an NFC chip that will be integrated into all our FX lifting magnets from the beginning of 2024

What is Green Dot for

- The Green Dot offers a wealth of information, which is divided into the device area and the customer area

Device area

- Link to database/website
- Spare parts list
- Manual
- Test instruction
- S-Nr. digital
- Rare earth material value = FX Refund

Customer area (freely writable)

- Contact details specialist dealer/inspector
- Inventory number
- Test history

Was is FX Refund

FX Refund as determined at the time of purchase will be reimbursed 100% when sent in for recycling

What sales benefits result from FX Refund

- Sustainability
- Price / value feeling
- Psychological advantage
- Trust
- Added product value through simple document maintenance / spare parts identification / digitalization

FLAIG

Magnetsysteme

Located in the beautiful Black Forest, our professionals offer you the best advice from the leading manufacturer of permanent and electro-permanent magnet systems. In addition to a wide range of standard products such as the FX series in the field of lifting magnets and the FXL series in magnetic clamping technology, we offer a wide range of magnetic auxiliary clamping and lifting devices and manufacture customer-specific solutions in quantities of one or as OEM for your needs.

From Experience and Innovation

Green Magnets for moderne Industry - Made in Germany
