RA 900 sauber

RA900 sauber

RA900 sauber, the synonym for agility, speed and stability. The narrow width makes it possible to drive through doors and turn in very narrow aisles. The RA900 sauber is well suited for sports surfaces etc. thanks to its low floor pressure. The rear wheel drive together with a powerful drive motor ensures excellent climbing characteristics, even with a full tank.

- **4 wheels for better weight distribution**
- **Available with or without chemical dosing**
- **Automatic water dosing, depends on speed**
