

JKB 6 Set with JUWathan

Load capacity: 2 x 6 t

Height: 110 mm

Art.-Nr. 14 061 085-DVu

Advantages of revolving transport trolleys

- Optional connecting bars can be fixed without tools by clamping down on adapter.
- High load capacity at low weight.
- Bearing supported swiveling castors allow 360° maneuverability.
- Mix and match revolving trolleys with transport trolleys: JKB 6 K has same height as transport trolleys series K.
- All products are also available in a set of two with price advantage.
- Unrivalled: The double roller system reduces rolling and turning resistance to a minimum.
- Using the slots in the platform, the trolleys JKB 3 - 7,5 can be affixed to the load with standard tiedown belts.
- In addition, all the rotational trolleys have a platform center hole to allow attachment to the load.
- For choosing the adequate revolving trolley we recommend a load of two-third of the maximum capacity. This will be the most advantageous compromise between payload, ergonomics and handling of the devices.
- Pulling handle and connecting bars available as accessories.
- Inspected according to technical regulation ANSI ? ASME (USA)
