

Tipping shovel

- Park Ranger 2150

Standard equipment:

Lifting capacity: 100 kg The tipping shovel makes light work of transporting gravel, sand or mould and saves the operator many lifts during the working day. 100 kg is easily transported from one place to another - even on the narrowest paths.

Hydraulic tipping function The hydraulic tipping function ensures an easy handling and is perfect when unloading over obstacles like for example small hedges. The transported material is spread evenly by unloading. For a perfect result level the layer with the edge of the shovel.

Robust steel construction The shovel features a robust steel construction, which enables it to manage a variety of different applications besides transporting material, for example to scrape off unwanted grass growth from flagged areas.

Technical specifications

Dimensions

Length	mm	2790
Width	mm	1045
Height with / without cabin	mm	1935 / 1210

Storage dimensions

Length	mm	670
