

LT7 technical information

Laser

Fiber source 3-4 kW

Cutting head BLM GROUP 3D Tube Cutter

Loading

Bundle and single bar loading fully automatic

Minimum loadable length 1,9 m

Maximum loadable length 6,5 – 8,5 m

Beam loading capacity 5.000 kg

Unloading

Three programmable positions, rear conveyor belt and motorised front and rear collection benches.

Unloading length 4,5 – 6,5 – 8,5 m

Power consumption

Average drawn power 15 kW (O2 cutting gas)

Average drawn power 20 kW (N2 cutting gas)

Standard machine loading 6.5 m and unloading 4.5 m

Available versions right or left

Machine weight 23,900 kg (including fume extraction)
